A Word from Publishers to our Readers

We express gratitude to all our readers and patrons for your valuable applause and appreciation of our endeavours in bringing out high-quality books that match international standards. We are grateful to you for providing us the opportunity to serve you and for making us one of the leading publishers of medical books in India.

The present era is marked by constant medical advancements. With the development of new concepts in every branch of medical science, medical publishing has been put on its toes to meet new challenges. Our aim is to meet those challenges and come up to the expectations of our readers by publishing books of the highest standards. With the passage of time, we have improved and strengthened our catalogue of medical books by working with highly qualified and well-known authors, editors, illustrators and graphic designers.

It has been our constant effort to bring out books based on the latest syllabi/curriculum for undergraduate and postgraduate medical students. The books are designed and developed, keeping in mind the requirements of students as well as the medical fraternity, with equal emphasis on modern pedagogical guidelines and approach.

As always, we look forward to your valuable suggestions and guidance to streamline our publishing programmes further.

We assure you of our best services.

Dr. Vipin Gupta

*Prices subject to change without prior notices*
The revised edition of the book in two volumes covers all aspects of physiology in detail and is intended for MBBS and MD students. It contains more than 1000 study questions, about 2000 MCQs and above 700 figures. Many clinical pictures have been incorporated for a better understanding of clinical concepts. A rapid preview has been presented to help the readers view the contents of the chapter. Study questions at the end of each chapter have been modified as per guidelines issued by the Medical Council of India (MCI). A detailed index has been prepared meticulously to easily search any text content.

**Dr. A.K. Jain.** Director Professor and Head, Deptt. of Physiology at Maulana Azad Medical College, New Delhi. He has been teaching Physiology for the last forty years. Apart from Maulana Azad Medical College, New Delhi, he has also worked in other institutions of repute like the All India Institute of Medical Sciences (AIIMS), New Delhi and Lady Hardinge Medical College, New Delhi. Dr. Jain has published a number of papers in various reputed scientific journals and has authored around 46 books with 25 titles till date in the subject of Physiology for students in health related professions ‘viz’ MBBS, MD, Dentistry, Nursing, Occupational and Physical Therapy and Pharmacy. He has the unique distinction of being honoured with many prestigious awards.

**ISBN :** 978-81-7739-476-4 (Vol I) and 978-81-7739-477-1 (Vol II)  
**Price :** 1295 (Set price, set of 2 volumes)  
**Pages :** 656 (Vol I) and 600 (Vol II)  
**Sixth Edition :** 2015

This book, based on Dr. A.K. Jain’s Textbook of Physiology (in two volumes), provides complete coverage of the subject for students in various disciplines of the medical profession. Its salient features include: the answer key at the end of each chapter for convenience, cross references for consolidating concepts, emphasis on the concept itself to facilitate answering questions of any level and a wide range of MCQs pertaining to applied aspects of clinically related topics. Frequently asked questions (FAQs) in various competitive examinations have also been included. A list of topics covered has been given at the beginning of each unit for proper orientation.

**Dr. A.K. Jain.** Director Professor and Head, Department of Physiology, Maulana Azad Medical College, New Delhi.

**ISBN :** 978-81-7855-192-6  
**Price :** `450  
**Pages :** 536  
**Second Edition :** 2015

The book summarises functions of the human body and is intended for 1st-year MBBS students. The entire text is set in multicolour; language is simple with clear point-wise presentation. As per the MCI guidelines, many flow charts, summarizing tables, well-labelled diagrams, chapter preview and frequently asked questions have been included. New concepts and latest developments have also been included. Applied aspects of clinically related topics have been discussed. Range of normal values of various parameters have been extracted from the internationally accepted norms as laid down by WHO. A very extensive index has been appended at the end of the textbook.

**Dr. A.K. Jain.** Director Professor and Head, Department of Physiology, Maulana Azad Medical College, New Delhi.

**ISBN :** 978-81-7739-134-8  
**Price :** `850  
**Pages :** 727  
**First Edition :** 2005  
**Reprint :** 2014
Manual of Practical Physiology for MBBS (Fourth Edition)

The revised edition of the manual covers all aspects of practicals on Human Physiology and Clinical Correlates. It contains 556 well-labelled diagrams, pictures, graphs and records depicting analysis and reasoning. Important viva-voce questions with answers are given at the end of each experiment. Objective Structured Practical Examination (OSPE) has been mentioned in a separate box at the end of some experiments. Frequently asked spots in the examinations have been placed in a separate appendix. An extensive index has been appended at the end of the book. More practicals on human physiology have been included and their applications to clinical medicine stressed.

Dr. A.K. Jain. Director Professor and Head, Department of Physiology, Maulana Azad Medical College, New Delhi.

Textbook of Practical Physiology for MBBS

The Textbook of Practical Physiology for MBBS is according to the new curriculum policy of the Medical Council of India (MCI). Therefore, more practicals on human physiology have been included and their application to clinical medicine stressed. The textbook is meant for anyone who wishes to learn through cause and effect relationships. Well-labelled 556 diagrams, pictures, graphs and records depicting analysis and reasoning have been included. Objective Structured Practical Examination (OSPE) has been placed in a separate box (wherever necessary) at the end of the practicals. The important topics covered in the textbook are grouped under four units as:

- Unit I: Haematology Experiments
- Unit II: Nerve and Muscle Experiments (Frog)
- Unit III: Human Experiments
- Unit IV: Mammalian (Dog/Rabbit) Experiments

Dr. A.K. Jain. Director Professor and Head, Department of Physiology, Maulana Azad Medical College, New Delhi.

Human Physiology in Nutshell (Third Edition)

This book is exclusively meant for the first year MBBS students for quick revision of the subject just prior to the theory and viva-voce examinations. The material is presented point-wise. It covers the subject in a nutshell without loss of the conceptual text. Frequently asked questions (FAQs) given separately at the end of each unit help to attempt the short-answer questions. It is a handy and student-friendly book that makes learning of the subject interesting. This edition is upgraded with more flow charts and tables. Information on new topics such as yoga, uremia and dialysis therapy have also been added.

Dr. A.K. Jain. Director Professor and Head, Department of Physiology, Maulana Azad Medical College, New Delhi.
**Textbook of Medical Biochemistry**

Textbook of Medical Biochemistry presents a clear and comprehensive account of the subject for students, both at the graduate and the postgraduate levels. Necessary details have been given to help in the process of concept-building. It has been very well-illustrated with coloured diagrams for good understanding.

Basic subject has been well-correlated with clinical situations. This has been presented in the form of clearly highlighted coloured boxes marked as clinical focus. These boxes have been suitably juxtaposed with the basic information for easy correlation. The book also provides a good overview of molecular biology and immunology which are the frontiers of biochemistry. The subject matter has been updated with the latest information to meet the requirements of the students. The author has used his long teaching experience to make this book easy and useful for all aspiring doctors.

*Dr. S.K. Gupta* (M.D.), Director Professor, at Maulana Azad Medical College, New Delhi. He has been teaching medical biochemistry to B.D.S., M.B.B.S., and M.D. students for over thirty years. He is very well aware of the students' requirements as he has been an examiner for many universities for MBBS and MD examinations and an expert in interview boards for the appointment of residents and faculty positions.

**Manual of Practical Biochemistry for MBBS (Second Edition)**

The manual has been written according to the MCI syllabus of practical biochemistry for first-year MBBS students. All practicals are based on standard methods which can be easily reproduced. Complete details of practicals including preparation of reagents are given. Nineteen cases of Clinico Biochemical History have been given for the benefit of the students. Clinical significance of each practical has been adequately explained. The manual can be used for observations, calculations and results, hence, there is no need for a separate practical notebook. It covers the various aspects of biochemistry including the role of clinical biochemistry in patient care.

*Dr. S.K. Gupta.* Director Professor, Department of Biochemistry, Maulana Azad Medical College, New Delhi.  
*Dr. Veena Singh Ghalaut.* Professor and Head, Department of Biochemistry, Pt. B.D. Sharma Postgraduate Institute of Medical Sciences, Rohtak (Haryana).  
*Dr. Anju Jain.* Director Professor, Department of Biochemistry, Lady Hardinge Medical College, New Delhi.

**Essentials of Immunology**

The book provides a clear and comprehensive account of immunology. The subject matter has been organised with a view to facilitate the building up of concepts. The relevant details involving recent developments have also been included in each chapter to provide a comprehensive coverage with an easy flow of language. The book has been profusely illustrated with nearly 280 diagrams representing every important aspect of immunology for visual memory and understanding. It is also provides flow diagrams and tables at appropriate places for easy assimilation.

*Dr. S.K. Gupta.* Director Professor, Department of Biochemistry, Maulana Azad Medical College, New Delhi.
**Complete Human Histology (Textbook cum Workbook)**

Histology forms an integral part of Anatomy. This book, written in simple and lucid language, will be helpful for both undergraduate and postgraduate medical students in Anatomy and Pathology.

The diagrams given in the book are simple sketches representing histological features emphasizing every minute detail of the cells and the nuclei. They can be easily reproduced by students during the examinations.

This textbook can also be used as a workbook. Unlabelled diagrams and blank pages have been provided to practice labelling and drawing diagrams.

This book is also useful for B.D.S., BHMS, B.Sc. Nursing and paramedical students.

**Dr. Renu Prasad.** Professor and Head, Department of Anatomy, Rajendra Institute of Medical Sciences, Ranchi.

She has teaching experience of more than 31 years. She was the Editor-in-Chief of her college magazine for several years and some of her articles were published in the college magazine.

---

**Essentials of Genetics**

This book aims at providing the MBBS and allied health sciences students with the basic concepts of genetics. Frequently asked topics in examinations have been included and unnecessary details have been avoided. While important topics have been discussed at length, other infrequently asked topics have also been covered. Efforts have been made to use simple English language throughout this book so that the text can be readily understood. Coloured illustrations have also been added so as to enhance and facilitate readers' understanding of the pertaining text.

A sincere attempt has been made to make the text concise and lucid. Chapters such as Dermatoglyphics, Prenatal Diagnosis and Important Techniques in Genetics have also been dealt with in order to keep pace with the recent developments.

**Dr. Renu Chauhan.** Associate Professor, Department of Anatomy, University College of Medical Sciences and Guru Teg Bahadur Hospital, Delhi.

---

**Surface and Radiological Anatomy — A Simplified Approach**

The book has been prepared keeping in view the needs of undergraduate MBBS, Dental and BSc (Radiology) students. A wide range of modern imaging techniques including Radiographs, Angiograms, Computed Tomography and Magnetic Resonance Images have been showcased with an excellent collection of relevant material.

A special effort has been made to keep the language simple and lucid without compromising on the informative and communicative contents. The book should be useful to a wide array of readers including students and teachers from diverse medical fields.

**Dr. Renu Chauhan.** Associate Professor, University College of Medical Sciences, Delhi.

**Dr. Manpreet Gambhir.** Consultant Radiologist at SRL Diagnostics, New Delhi.

The book has been thoroughly revised and written in a simple language making it user-friendly and easy to understand. It includes:

- Easy-to-understand working steps of each practical in order to enable a beginner perform the exercises independently.
- Identification schemes for different bacteria in the form of flow charts for quick recapitulation.
- Colour plates and diagrams of spots depicting their salient features to get concrete knowledge of the subject at a glance.
- Chapters on 'Sterilisation and Disinfection', and 'Antimicrobial Sensitivity Testing' emphasising their role in Clinical Microbiology.
- A chapter on 'Hospital Waste Management'.

**Practical Microbiology for MBBS (Third Edition)**

Dr. C.P. Baveja. Director Professor and Head, Department of Microbiology, Maulana Azad Medical College, New Delhi.

---

This book has been written to present essential information on parasites and parasitic diseases, their laboratory diagnosis and recent advancements in the field. The text has been presented in a simple and lucid language. Real colour plates/diagrams have been given at appropriate places. Life-cycles of parasites have been explained with the help of flow diagrams for recapitulation. Important aspects of parasites have been summarized in the appendices. A chapter on 'Opportunistic Parasitic Infections' has also been included for better understanding of these parasites in immunocompromised patients. 'Key Points' and 'Multiple Choice Questions' enable quick understanding of the chapters. Well-labelled diagrams and tables have been provided at appropriate places to make learning easier.

**Medical Parasitology (Third Edition)**

Dr. C.P. Baveja. Director Professor and Head, Department of Microbiology, Maulana Azad Medical College, New Delhi.

Dr. V. Baveja. Formerly at B. J. Medical College and N. M. Wadia Hospital, Pune.

Textbook of Pathology for MBBS (Volumes I and II)

The book is written in a simple and lucid language making it student-friendly. The topics in the book have been starred according to importance. All the pathogenesis are in flow diagrams. Synchronised microscopic and hand-drawn figures have been given for easy understanding and will prove useful in practical classes. Region-specific and country-specific incidences of diseases have been discussed. A list of important questions has been given at the end of each chapter. Hand-drawn, synchronised diagram with detailed labelling has been provided for important concepts. A CD is also being provided containing references of direct links to websites for further reading. Recent advancements in the field of Pathology have been given in the section titled ‘Advanced Reading Box’ so that students can keep themselves updated with the recent developments.

Dr. A.K. Mandal is an MBBS from Maulana Azad Medical College, New Delhi; MD in Pathology from AIIMS, New Delhi; Ph.D from Fukushima Medical University, Japan and Founder Principal and Dean of Veer Chandra Singh Garhwal Government Medical College, Srinagar, Uttarakhand. He was the Deputy Director General (Medical Education) in the Ministry of Health and Family Welfare, Government of India. Presently, he is Director Professor and Head, Department of Pathology, Vardhaman Mahavir Medical College, New Delhi.

Dr. Shramana Choudhury is a graduate of Maulana Azad Medical College, New Delhi. She did her MD in Pathology from Lady Hardinge Medical College, New Delhi and joined Maulana Azad Medical College as an Assistant Professor and later JIPMER Puducherry. Presently, she is Assistant Professor, Department of Pathology, Maulana Azad Medical College, New Delhi.

Practical Pathology (With Viva Voce Questions) (Third Edition)

The revised edition of this book has been designed as a concise yet exhaustive book to facilitate learning and preparation of practical and viva voce examinations. Common histopathology slides as well as the clinical pathology and haematology sections have been made keeping practical examinations in mind. Gross identification of organs of common pathology museum specimens and the principles and procedures of FNAC, CSF, Semen and Sputum examination have been covered for general understanding and viva voce. Commonly asked viva voce questions have been given at the end of each chapter in all sections.

The book is profusely illustrated with microscopic and gross colour photographs. Hand-drawn pictures have been given alongside the microscopic pictures for better understanding which will help students in drawing pictures in their practical records.

Dr. Tejindar Singh. Director Professor, Department of Pathology, Maulana Azad Medical College, New Delhi.
Dr. K. Uma Chaturvedi. Former Director Professor and Head, Department of Pathology, Maulana Azad Medical College, New Delhi.
Textbook of Haematology (Third Edition)

The book provides a comprehensive coverage of all aspects of haematology in a simple and easily understandable manner. A preview has been presented at the beginning of each chapter to view the contents therein. The book is profusely illustrated to make students understand the morphology of haemopoietic cells in blood and bone marrow. Flow charts, coloured pictures, figures and tables in the book elucidate the pathogenesis, morphology and comparisons. The latest concept of 'The Bone Marrow Failure Syndromes' has been explained by incorporating various disease entities.

Dr. Tejindar Singh. Director Professor, Department of Pathology, Maulana Azad Medical College, New Delhi.

Text and Practical Haematology for MBBS

It is an 'all-in-one' resource for medical undergraduate students. It aims at covering the MBBS curriculum, both in theoretical aspects and in preparation for practical examinations. The book is thoroughly updated with the latest classification schemes and diagnostic approaches and adequately incorporates all recent advancements in laboratory testing technologies. Emphasis has been laid on making learning interesting and fun by means of illustrations and flow diagrams as well as giving due importance to modern-day medical practice requirements and clinical-pathological correlations.

The author’s extensive experience as an MBBS teacher, examiner and curriculum designer is reflected in the Points-to-Remember section, the Multiple Choice Questions and the Viva-Voce questions at the end of each chapters. These help students test their memory, remember vital facts and prepare for professional examinations as well as for the PG entrance tests.

Dr. Tejindar Singh. Director Professor, Department of Pathology, Maulana Azad Medical College, New Delhi.

MCQs in Pathology

The book covers the undergraduate curriculum of Pathology. It provides learning material for fresh medical graduates to help them take PG entrance examinations of various colleges and universities. The topics covered range from the basic to very specific ones. For this reason, alternatives to several questions have been given in great detail. A variety of questions have been framed on singular topics for effective preparation.

Dr. K. Uma. Former Director Professor and Head, Department of Pathology, Maulana Azad Medical College, New Delhi.
Dr. T. Singh. Director Professor and Head, Department of Pathology, Maulana Azad Medical College, New Delhi.

Essentials of MD/DNB Pathology Practical Examination

The book has been aimed to provide the techniques for preparation of the MD/DNB practical exam in a step-wise and logical manner. All the components of the exam like slide sessions of haematology, histopathology and cytology, techniques of haematology and histopathology, gross pathology and spots have been covered extensively. Quality photographs have been provided which distinctly bring out the morphologic features that help in diagnosing various disease entities. Emphasis has been given on the viva-voce questions which follow each exercise. They include 'must know' questions that are favourites with examiners and further questions on genetic, molecular and IHC markers.

The book has been designed as an integral resource to prepare for the practical examination of MD/DNB Pathology.

Dr. T. Singh. Director Professor and Head, Department of Pathology, Maulana Azad Medical College, New Delhi.
Dr. Gita Jayaram. Former professor, Department of Pathology, University of Malaya, Malaysia.
Dr. Nita Khurana. Professor, Department of Pathology, Maulana Azad Medical College, New Delhi.
Dr. Neha Singh. Assistant Professor, Department of Pathology, AIIMS, Rishikesh.

A Complete Textbook of Medical Pharmacology (Volumes I and II)

A Complete Textbook of Medical Pharmacology has been written for undergraduate medical students as per the MCI regulations. The book has the following salient features:

- All topics have been covered uniformly with appropriate emphasis.
- The concepts and mechanisms have been clearly explained.
- Clinical uses of groups of drugs are clearly mentioned with preferred agent for each use with reasons thereof, wherever applicable.
- Adverse effects of drugs/groups of drugs are clearly mentioned in order of importance, wherever applicable.
- Certain chapters have been especially incorporated to keep pace with the recent developments. These include:
  1. Nitric Oxide and its role in Therapeutics
  2. Treatment of Shock, Drug Dependence and Drug Abuse
  3. Drug Therapy of Common Bacterial Infections
  4. Ocular Pharmacology
  5. Dental Pharmacology
  6. Therapeutic Gases
  7. Common Drug Poisoning
  8. Antidotes and Principles of Treatment
- Comments on Fixed Dose Combinations (FDCs) have been mentioned.
- The formulations available in the Indian market with a few brand names have been included.
- Figures, structures of drugs and tables are purposeful, relevant and adequate.

Dr. S.K. Srivastava. Professor and Head, Department of Pharmacology, Surat Municipal Institute of Medical Education and Research (SMIMER) and SMIMER Hospital, Surat. He obtained both MBBS and MD (Pharmacology) degrees from the King George’s Medical College (upgraded to CSM Medical University), Lucknow (UP). An eminent teacher with teaching experience of about 24 years, he has been an examiner for both undergraduate and postgraduate examinations in various medical colleges. He was awarded the ‘C L Malhotra Research Prize’ for the Best Paper in Pharmacology in 1997.

Practical Pharmacology for MBBS

This book is not only a practical manual for students but also helps practising doctors of any speciality. The book aims to impart basic concepts and build up the students’ ability to design rational, ethical, safe and efficacious treatment for diseases. It infuses the needed skill and knowledge for practical training in pharmacotherapeutics for students. It helps to imbibe the art of good prescribing practice in students in a simple and easy manner. Clinical Pharmacology chapters have also been covered to suit the needs of MBBS as well as MSc and MD students.

Dr. Mukta N. Chowta. Professor & Head, Department of Pharmacology, Kasturba Medical College, Mangalore.
Dr. Ashok Shenoy. Professor, Department of Pharmacology, Kasturba Medical College, Mangalore.
Dr. Ashwin Kamath. Associate Professor, Department of Pharmacy, Kasturba Medical College, Mangalore.

MCQs in Advanced Medical Pharmacology

The book contains structured and unambiguous questions that will enrich students with the basic concepts of medical pharmacology. It is aimed to help students gain confidence in learning the subject. The main feature of the book lies in the clinically relevant points covered with utmost clarity.

Dr. K.V. Ramesh. Professor and Head, International Medical School, Bengaluru. He has been teaching pharmacology for four decades in an internationally accredited institution at Bengaluru. The author with his vast professional experience, clinical research expertise and student interaction has produced this informative, thought-provoking and well-organized book.
Textbook of Forensic Medicine (Medical Jurisprudence and Toxicology)

The textbook is student-friendly and written in a simple and lucid language. Thus, it will immensely benefit undergraduate and postgraduate students and all other officials posted in a health set-up. It covers the subject according to the guidelines of the Medical Council of India (MCI). It contains 899 illustrations, photographs, tables, diagrams and crucial points at appropriate places for easy grasp of the subject. Newer and modern concepts have been incorporated, simplified and presented. Relevant laws and acts have also been included. The Toxicology section has been presented in an Indian context.

Dr. Ajay Kumar. M.B.B.S. M.D., M.N.A.M.S.

Textbook of Forensic Medicine and Toxicology

This book, primarily written for students, presents information in a systematic and concise manner for easier and faster memorization. The core principles of Forensic Medicine and Toxicology have been explained to the overburdened undergraduate students in a simple and examination-friendly manner.

Dr. Anil Aggrawal obtained his MD in Forensic Medicine and Toxicology from the All India Institute of Medical Sciences, New Delhi and then proceeded to Edinburgh – traditionally regarded as the home of Forensic Medicine – for higher training. He was trained further in Japan and US under the prestigious WHO fellowship. Dr. Aggrawal is Director Professor of Forensic Medicine at Maulana Azad Medical College, New Delhi and edits a peer-reviewed internet journal on this subject.

Essentials of Forensic Medicine and Toxicology

This is an abridged version of the author’s earlier book 'Textbook of Forensic Medicine and Toxicology.' The primary objective of this book is to provide all the essential topics in a concise manner to the overburdened students. The book contains around 200 mnemonics and memory aids. The author has explained the core concepts and principles in a lucid and simple language.

Dr. Anil Aggrawal obtained his MD in Forensic Medicine and Toxicology from the All India Institute of Medical Sciences, New Delhi and then proceeded to Edinburgh – traditionally regarded as the home of Forensic Medicine – for higher training. He was trained further in Japan and US under the prestigious WHO fellowship. Dr. Aggrawal is Director Professor of Forensic Medicine at Maulana Azad Medical College, New Delhi and edits a peer-reviewed internet journal on this subject.

Textbook of Medicine for MBBS (Third Edition)

The book is in its third revised and updated edition. It covers the complete course on MBBS with four new units on Critical Care Medicine, Geriatric Medicine, Clinical Pharmacology and Clinical Immunology. The salient features of the book are as follows:

- Diseases prevalent in India have been discussed in detail.
- New topics on Yoga and Bioterrorism have been included to keep abreast of recent developments.
- The language of the book has been kept simple and precise.
- The text has been supplemented with beautiful illustrations and diagrams in each unit.
- Multiple Choice Questions have been included.

The book will prove useful for the clinicians and doctors working in the peripheral parts of the country. It will be a good impetus for practitioners to keep themselves updated with the subject while doing their practice.

Dr. S.N. Chugh. Ex. Senior Professor and Pro Vice Chancellor, Pt. B.D. Sharma Postgraduate Institute of Medical Sciences, Rohtak, Haryana.

Essentials of ECG

Essentials of ECG has been written in a simple language and covers all important ECG related disorders based on physiological concepts, which helps to interpret ECG accurately. The important aspects have been highlighted in boxes as Notes/Important Notes for quick and easy understanding. Actual ECG illustrations have been furnished to help memorize and reproduce various aspects of ECG. The easiest method of calculation of QRS axis in day-to-day clinical practice has also been presented in the book.

Dr. Vipin Gupta. Ex-Resident, Pt. B.D. Sharma Postgraduate Institute of Medical Sciences, Rohtak, Haryana.

Textbook of Obstetrics

Textbook of Obstetrics covers the new advances in the field of Obstetrics especially in diabetes, HIV and hypertension. There is a separate chapter titled 'Imaging in Obstetrics' with plenty of quality pictures for better understanding and another called 'Obstetric Instruments, Specimens, Drugs, Spots and Laboratory Tests' for better performance in practical examinations. A separate chapter titled 'Theory and Practical Examination in Obstetrics' includes sample papers, sample cases and marking pattern for undergraduate and postgraduate examinations.

The evidence-based medicines and guidelines from prestigious institutions have been incorporated throughout the book. The book also contains 800 clinical photographs, figures, tables, flow charts, ultrasound and other imaging modalities for better understanding and concept-building.

The book, though essentially meant for undergraduate students, will also be useful for postgraduate students, students of streams like Midwifery, Homeopathy and Ayurveda as well as medical practitioners.

Dr. J.B. Sharma. MD, DNB, FRCOG (London), MFFP (London), FAMS, FICOG, FIMSA, Professor in Department of Obstetrics and Gynaecology, All India Institute of Medical Sciences, New Delhi. Formerly, a Professor of Obstetrics and Gynaecology at Maulana Azad Medical College, New Delhi. He has also worked as Obstetrician and Gynaecologist at St. Bartholomew’s Homerton and Whipps Cross Hospital, London, United Kingdom.

- He has to his credit over 360 papers in various journals of national and international repute.
- Associate Editor of International Journal of Gynaecology and Obstetrics (Indio).
- Written and edited three books and several articles in journals of repute.
- Contributed chapters in 'Progress of Obstetrics and Gynaecology' edited by Professor John Studd from United Kingdom.

Textbook of E.N.T.

The book, maintaining a balance between theoretical and clinical text, adopts a more practical and clinical approach in a lucid manner. Emphasis has been laid on the latest trends in surgical procedures by way of endoscopic systems. The chapter 'Radiology in ENT' will prove helpful in radiological investigations. The colour plates of otoscopy, rhinoscopy and laryngoscopy will enrich the book in its visual grasp. This book is useful for undergraduates, postgraduates and clinicians in their day-to-day practice.

Dr. Sharad Maheshwari. Senior Consultant, Department of Otolaryngology, Sunder Lal Jain Hospital, New Delhi.
Dr. Subirendra Kumar. Former Associate Professor, Department of Otolaryngology and Head-Neck Surgery, All India Institute of Medical Sciences, New Delhi.

Textbook of Dermatology

The aim of this book is to provide an easy-to-read, uniformly structured textbook on the subjects of dermatology, sexually-transmitted infections and leprosy to the students and medical practitioners of dermatology so that they can easily understand the basic concepts and diagnose and manage the common disorders. The twenty-five chapters incorporate all the important aspects of dermatology ranging from basic cutaneous science to upcoming topics such as cosmetic dermatology and dermatosurgery. An effort has been made to put the key features of diseases under the definitions so that the reader can grasp the essentials of diseases at a glance. The frequently asked MCQs are given at the end of each chapter to help students prepare for competitive exams. All the common disorders are illustrated through excellent high quality 360+ colour photographs and amply supported by 130+ tables for easy and quick grasp of the subject. The approach is clinical with emphasis on diagnosis and management.

Dr. S.B. Shrivastava. Consultant Dermatologist and Head, Department of Dermatology, Dr. Baba Saheb Ambedkar Hospital, Govt. of NCT of Delhi.

MCQs in Respiratory Medicine

The book contains 22 chapters which cover almost all respiratory diseases and acute respiratory infections in children. The book deals with important topics in Respiratory Medicine that include bronchial asthma, bronchiectasis, bronchoscopy, embryology, fungal diseases, lung tumors, sarcoidosis, pleural effusion, pneumonia, tuberculosis, etc. There are 1400 MCQs arranged systematically which cover all major aspects of Respiratory Medicine. All questions have answers at the bottom of the page for quick reading. The book will prove very useful to the students for refreshing their knowledge and preparing for MD and DM exams. Questions have also been included from previous competitive exams of various institutes in India.

Dr. B.L. Bhardwaj. Associate Professor of Internal Medicine, Government Medical College, Patiala.
Dr. Kanchan Bhardwaj. Associate Professor, Government Medical College, Patiala.
Dr. Aastha Miranpuri. MBBS from Wisconsin, USA.
**Practical Paediatric Neurology (Second Edition)**

This book provides relevant information on neurological malformations, infections, cerebral palsy, epilepsies, mental retardation, neurodegenerative disorders, neonatal neurological problems and neuromuscular diseases, and dietary therapies. The second edition of the book has been thoroughly revised to cover more disease states. It gives clear guidelines and practice parameters and stresses on algorithmic approach to many symptoms enabling paediatricians to optimally investigate their patients and take therapy decisions. Preventive strategies have also been duly covered.

**Dr. Veena Kalra.** Former Professor and Head (Paediatrics), All India Institute of Medical Sciences (AIIMS), New Delhi. She is instrumental in initiating and propagating Paediatric Neurology in the country. She is a part of the Executive Body of Child Neurology in the world.

**ISBN :** 978-81-7855-411-2 | **Price :** ₹ 400 | **Pages :** 318 | **Second Edition :** 2008 | **Reprint :** 2014

---

**Practical Spermatology (Second Edition)**

This is an ideal handbook for andrologists, gynaecologists and pathologists dealing with infertility cases. Special stress has been laid on functioning capacity, morphology of the spermatozoa and the factors that adversely affect it. The book has been profusely illustrated with neatly labelled diagrams and incorporates the latest definitions and technologies from the field. It is very useful for pathologists and others dealing in the evaluation and preservation of semen.

**Dr. B.S. Shah.** Professor, Department of Pathology, Dayanand Medical College, Ludhiana.

**Dr. N.R. Kalla.** Professor (Retd.), Department of BioPhysics, Punjab University, Chandigarh.

**Dr. H.K. Verma.** Associate Professor (Gynaecology), Department of Veterinary and A.H. Extension, College of Veterinary Science, Punjab Agriculture University, Ludhiana.

**ISBN :** 81-8296-134-3 | **Price :** ₹ 250 | **Pages :** 133 | **Second Edition :** 2006

---

**Atlas and Text of Hematology (Third Edition)**

The book is authored by Professor Tejindar Singh, one of the leading hematologists in India, backed by his considerable experience in blood and bone marrow examination. With more than 1,000 high quality images and an up-to-date text, the book is meant to help accelerate learning for trainees and practising pathologists. The crisp pictures of this atlas are highly informative and cover nearly all hematological disorders. Relevant clinical information on etiology, risk factors, interventions and prognosis given in a concise manner help in consolidating knowledge. The book is very useful for diagnostic pathologists and doctors practising Clinical Hematology, Pediatrics, Medicine and Oncology.

**Dr. Tejindar Singh.** Director Professor, Department of Pathology, Maulana Azad Medical College, New Delhi.

**ISBN :** 978-81-7739-413-9 | **Price :** ₹ 1450 | **Pages :** 466 | **Third Edition :** 2014
Hematopathology Atlas

Authored by one of the leading diagnostic hematopathologists of India, the book **Hematopathology Atlas** is the result of decades of rich and precious diagnostic experiences. With over 1600 high-quality coloured photographs, the book reinforces the significance of morphology with a strong emphasis on basic morphological features of the entire spectrum of hematological disorders. It provides a comprehensive knowledge of hematology in a simple, yet concise and exquisitely illustrated format. It covers a wide range of information on etiopathogenesis, clinical profile, blood and bone marrow morphology and various common and rare disorders of blood. The book with its simple flow-charts, quick look-up tables and diagnostic algorithms will prove to be a trusted companion for the diagnostic pathologists and hematologists. It can be equally used as a reference book for pediatricians, physicians and oncologists.

**Dr. Tejindar Singh.** Director Professor, Department of Pathology, Maulana Azad Medical College, New Delhi

Obstetric Anaesthesia

The book incorporates basic anatomy, physiology and pharmacology relevant to obstetrics along with the most recent advances in resuscitation of the neonate and critically ill obstetric patients. The text has been contributed by forty authors from all over India and other countries, who are pioneers in their subjects. Chapters on regional anaesthesia and labour analgesia in the parturients include illustrations, practical tips and discussions on the analysis of controversial issues. The final chapters deal with evidence-based practice and guidelines for obstetric anaesthesia and the medico-legal issues for practising obstetric anaesthesiologists.

**Dr. Sunanda Gupta.** Professor, Anaesthesiology, RNT Medical College, Udaipur (Rajasthan).

Radiological Procedures – A Guideline (Second Edition)

Radiological procedures are performed regularly in all teaching institutes, but no book is available on this subject. With an effort to fill this gap, this book has been introduced for the first year residents to enable them to perform radiological procedures with confidence. Radiographers will find it useful, not only for their examinations but also in their day-to-day life.

**Dr. Bhushan N. Lakhkar.** Professor and Head, Department of Radiodiagnosis and Imaging at Jawaharlal Nehru Medical College, Sawangi (Meghe), Wardha (Maharashtra). He is a well known teacher of in Radio Diagnosis with over 30 years teaching experience in various institutions in India and abroad. He was Professor and H.O.D at KMC Manipal for 15 years. He was a visiting professor at Aga Khan University, Nairobi. He has written two books on radio diagnosis, besides many publications in national and international scientific journals of repute.
Concise Radiology for Undergraduates (Second Edition)

Concise Radiology for Undergraduates has been written in a simple language and lucid manner with the aim of providing easy understanding of the complexities in the ever-growing field of radiology for undergraduates appearing in the final year examinations. All the topics covered in this book are generally asked in clinical postings and MBBS exams. Therefore, various common entities have been presented along with line diagrams and multi-modality images to illustrate the lessons and enhance understanding of them. Multiple Choice Questions (MCQs) have been added after each chapter to help students for the entrance examinations.

Dr. Bhushan N. Lakhkar. Professor and Head, Department of Radiodiagnosis and Imaging, Jawaharlal Nehru Medical College, Sawangi (Meghe), Wardha (Maharashtra).

Dr. Chandrakant M. Shetty. Associate Professor, Department of Radiodiagnosis and Imaging, Kasturba Medical College, Manipal.

Concise Psychiatry for Undergraduates

Concise Psychiatry for Undergraduates has been written for undergraduate MBBS, BAMS and Nursing students. As a special feature, each chapter is followed by ample Multiple Choice Questions. The book furnishes fundamental information and the latest developments in Psychiatry in a simple, concise and learner-friendly manner. The increasing problem of mental illnesses in children, women and elderly people have been addressed adequately in three separate chapters. The MCQs will prove very helpful for the students appearing for entrance examinations for MD/MS and during their junior residency.

Dr. P.D. Garg. Associate Professor in the Department of Psychiatry, Government Medical College, Amritsar. He has the experience of teaching Psychiatry in different medical colleges for more than 25 years.

Dr. Aseem Garg. House Officer, Psychiatry, St. George Hospital, Stafford, U.K. He did his MBBS from KMC, Mangalore. He is a member of the Indian Psychiatric Society.

Atlas and Text of Thyroid Cytology

This book is aimed at giving comprehensive information about the cytological and histological appearances of various common and uncommon neoplastic and non-neoplastic lesions of the thyroid. This manual discusses and illustrates classical cases and many tropical problems and pitfalls. It guides the user to format reports so that they become clinically useful and help in direct patient management. The book has around 250 illustrations in four colours.

The book has been subsidised by the Government of India.

Dr. Gita Jayaram. Professor, Department of Pathology, Faculty of Medicine, University of Malaya, Kuala Lumpur, Malaysia. She is also a former Professor of Pathology at Maulana Azad Medical College, New Delhi.

**Books for BDS**

**Human Physiology for BDS (Fifth Edition)**

The thoroughly revised fifth edition of the book includes more study questions, coloured figures, flow charts and tables for enhanced understanding. The book provides fundamental information and clear concepts on human physiology as per the recommendations of the Dental Council of India (DCI). The simple and lucid style of presentation, well-labelled diagrams and Multiple Choice Questions (MCQs) are included at the end of each chapter.

Dr. A.K. Jain. Director Professor and Head, Department of Physiology, Maulana Azad Medical College, New Delhi.

**Manual of Practical Physiology for BDS (Third Edition)**

The revised edition of the manual is in line with the curriculum policy of the Dental Council of India for BDS students and provides learning through cause-effect relationships. It encourages logical and analytical thinking in understanding physiology experiments. It furnishes working steps in an extremely simplified manner so that any experiment can be handled even by a beginner. The labelled diagrams and graphs, important viva-voce questions appended at the end and study notes are the salient features of the book.

Dr. A.K. Jain. Director Professor and Head, Department of Physiology, Maulana Azad Medical College, New Delhi.

**Manual of Practical Biochemistry for BDS (Second Edition)**

This book has been written with the objective of providing a concise, comprehensive and easily understandable course material of Practical Biochemistry to B.D.S. students. It also aims to give a good exposure to the various aspects of biochemistry and the role of clinical biochemistry in patient care. Each experiment gives clear, easy-to-follow procedures and calculations. Interpretation is discussed in the form of questions and answers. The text has been combined with a notebook in such a manner that students can use the manual itself as a practical notebook.

Dr. S.K. Gupta. Director Professor, Department of Biochemistry, Maulana Azad Medical College, New Delhi.

Dr. Veena Singh Ghalaut. Professor and Head, Department of Biochemistry, Pt. B.D. Sharma. Postgraduate Institute of Medical Sciences, Rohtak (Haryana).

Dr. Anju Jain. Director Professor, Department of Biochemistry, Lady Hardinge Medical College, New Delhi.

The book has been written according to the syllabus of microbiology prescribed by the Dental Council of India (DCI) for BDS students. Real colour plates/diagrams have been given at appropriate places. Chapters on ‘Culture Methods’, ‘Processing of Specimens’ and ‘Hospital Waste Management’ have been included for practical understanding. Key Points have been provided for easy and quick recapitulation.

Dr. C.P. Baveja. Director Professor, Department of Microbiology, Maulana Azad Medical College, New Delhi. He has been teaching microbiology for the last 25 years. He was awarded Gold medal during his postgraduation and was honoured with the Best Medical Educationist award in the year 2000.

This textbook is for BDS students who have to read multiple subjects, comprehend them and assimilate them in a limited time. The book has been written in a simple and lucid language. Synchronised microscopic and hand-drawn figures have been given for easy understanding. Region-specific and country-specific incidences of diseases have been discussed. All the pathogenesis are in flow diagrams. A CD has also been provided containing references with direct links to websites for further reading.

Dr. A.K. Mandal. M.B.B.S, M.D. (AIIMS), and Ph.D (Japan); Additional Director, Director Professor and Head, Department of Parasitic Diseases, National Centre for Disease Control, Delhi. He has a wide range of experience in the field of pathology and has worked in institutes of international repute. He is known for his valuable contribution to cancer pathology, particularly in the field of breast cancer. He has published his research work in various national and international journals.

Dr. Shramana Choudhury. M.B.B.S. (MAMC), M.D. D.N.B., Assistant Professor, Department of Pathology, G B Pant Hospital and associated with Maulana Azad Medical College and LN Hospital, New Delhi. She has a large number of publications to her credit, mostly in international journals of repute.

The book has been planned in an easy and student-friendly manner to enable the students to perform with confidence in the examinations. It clarifies the fundamental concepts and prepares the students for practical and viva-voce examinations in Pathology and Microbiology. The book is profusely illustrated with four colour photographs/diagrams of spots.

Dr. Tejindar Singh. Director Professor, Department of Pathology, MAMC, New Delhi.
Dr. C.P. Baveja. Director Professor, Department of Microbiology, MAMC, New Delhi.
Dr. K. Uma Chaturvedi. Former Director Professor and Head, Department of Pathology, MAMC, New Delhi.
Dr. V.K. Sharma. Former Director Professor and Head, Department of Microbiology, MAMC, New Delhi.

Textbook of Clinical Medicine for Dental Students (Fourth Edition)

The book covers the course prescribed by the Dental Council of India and has been written in a comprehensible and simple language. The book includes:

- The clinical part under the head 'Examination' comprising inspection, palpation, percussion and auscultation.
- Tables, diagrams and figures have been revised and are self-explanatory.
- A chapter on oral manifestations of systemic disorders covering the diseases/systems which are most concerned in dentistry.
- A new chapter on 'Dental Emergency in Clinical Practice'.
- A comprehensive text on the symptoms or signs of diseases.
- A chapter on pre-anaesthetic check-up before dental surgery.
- Multiple Choice Questions (MCQ).
- Appendices consisting of normal biochemical values, WHO immunisation schedule and several other important subjects.

Dr. S.N. Chugh. Ex. Senior Professor and Pro Vice Chancellor, Pt. B.D. Sharma University of Health Sciences, Rohtak, Haryana.
Dr. Anshul Chugh. Associate Professor in Prosthodontics, Government Medical Dental College, Rohtak.
Books for NURSING

Anatomy for B.Sc. Nursing

The book Anatomy for B.Sc. Nursing has been prepared in accordance with the curriculum prescribed by the Indian Nursing Council.

The book has the following salient features:
- Written in a simple, easily understandable language.
- Text is concise and reader-friendly.
- Includes all aspects of human anatomy.
- Well-labelled diagrams and figures make the concepts clear.
- Useful not only for nursing students, but also for teachers and serving nurses.

Dr. Renu Chauhan is a graduate from the University College of Medical Sciences, Delhi and a postgraduate from Maulana Azad Medical College, New Delhi. She received Gold Medal for Best Thesis in Pre and Para Clinical Subjects. Dr. Chauhan did her senior residency from the All India Institute of Medical Sciences, New Delhi and was awarded Dr. Ranga Travel Grant for the best paper presented in the Conference of National Anatomical Society of India held in Jhansi in 1999. She is currently working as a Reader at the University College of Medical Sciences and Guru Teg Bahadur Hospital, Delhi.

Physiology for B.Sc. Nursing

This book is exclusively meant for B.Sc. (Nursing) students. It provides basic concepts of elementary principles for a thorough understanding of the physiology of the human body. The textbook has been designed in accordance with the latest syllabus issued by the Indian Nursing Council. Text material has been included which stresses on applications in Clinical Medicine. The learning objectives of each system are clearly defined to bring them in line with the requirements of the new curriculum.

Salient features of the book:
- Entire text has been presented in multicolour with simplified figures for better understanding.
- The text has been designed to cover all the latest guidelines issued by the Indian Nursing Council.
- Study questions are given at the end of each chapter for greater accuracy.
- The book is also useful for students of other streams and serving nurses.

Dr. A.K. Jain. Director Professor and Head, Department of Physiology, Maulana Azad Medical College, New Delhi.

Anatomy and Physiology for Nursing (Third Edition)

This book is exclusively meant for B.Sc. (Hons) Nursing students. It has been upgraded as per the revised norms laid down by the Nursing Council of India. The book provides basic concepts and elementary principles for a thorough understanding of the human body. The entire text has been presented in multicolour and study questions have been given at the end of each chapter for greater accuracy.

Dr. A.K. Jain. Director Professor and Head, Department of Physiology, Maulana Azad Medical College, New Delhi.

Dr. R.K. Suri. Director Professor, Department of Anatomy, Vardhaman Mahavir Medical College, New Delhi. (Revised Anatomy Portion)
The book has been written in a user-friendly and easy-to-understand manner. Real colour plates/diagrams have been given at appropriate places. The language is simple and lucid. Key points have been given at the end of each chapter for easy and quick recapitulation. The book has been written as per the prescribed syllabus for B.Sc. (Nursing) by the Nursing Council of India (NCI). MCQs have also been added for better understanding.

Dr. C.P. Baveja. Director Professor, Department of Microbiology, Maulana Azad Medical College, New Delhi. He has been teaching microbiology for the last 25 years. He was awarded Gold medal during his postgraduation and honoured with the Best Medical Educationist award during the year 2000.

Practical Microbiology for Nurses

Practical Microbiology for Nurses gives working steps for each practical to enable a beginner perform the experiments independently. Identification schemes for different bacteria in the form of flow charts to facilitate quick recapitulation are included in this book. Colour plates/diagrams of spots are incorporated to get concrete knowledge at a glance. A chapter on 'Hospital Waste Management' emphasising its role in microbiology as well as in the clinical care of patients in the hospital has been added. Written in a simple and lucid language, the book also gives questions along with model answers for easy reproducibility.

Dr. C.P. Baveja. Director Professor, Department of Microbiology, Maulana Azad Medical College, New Delhi.

Microbiology for Diploma in GNM (General Nursing and Midwifery)

The book has the following salient features:
- User-friendly and easy-to-understand.
- The text is presented in a simple manner.
- Colour plate/diagrams and tables are incorporated to provide useful information at a glance.
- The book has been written as per the prescribed syllabus for the students of Diploma in GNM.

Dr. C.P. Baveja. Director Professor, Department of Microbiology, Maulana Azad Medical College, New Delhi.
Dr. V. Baveja. Formerly at B.J. Medical College and N.M. Wadia Hospital, Pune.

Computer for Nurses

This book has been written keeping in mind that our future nurses will have to operate the latest softwares and hardware to fulfill their noble job efficiently. It is a tutorial which will not only help the individuals pursue a career in nursing but also benefit those who would like to have the know-how of computers and frequently used softwares.

The book has the following salient features:
- The book has been written according to the features of Windows 7 Operating System and MS Office 2010.
- It is written as per the syllabus prescribed by the Indian Nursing Council. The book has been divided into units and chapters accordingly.
- The language used is simple and easy-to-understand. No prior knowledge of computers is required. This book will enable any individual to understand and use computers.

Psychology for Nurses

This book is specifically designed to give insights into the nature, background and application of the subject 'psychology' in a form and way as needed by students and working professionals. The book is written in a simple, lucid and user-friendly style and interspersed with examples, illustrations, tables and implications. Attempts have been made to integrate theory with practice and application of the facts and principles of psychology by highlighting the implications of the related knowledge to the nurses. The important topics covered in the book are:

Unit I: Introduction (History, Scope and Methods of Psychology)
Unit II: Biology of Behaviour
Unit III: Cognitive Processes

Dr. S.K. Mangal. Retired Principal and Professor—Head, Postgraduate Department, C.R. College of Education, Rohtak. He has been actively associated with writing in the field of education and psychology for more than three decades. He has also devised certain psychological tests like Teacher Adjustment Inventory and Emotional Intelligence Inventory and published extensively in reputed journals.

---

Essentials of Psychology for Nurses

Psychology is termed as the science of behaviour. The study of the subject equips the learners with essential knowledge and skills that help in adjustment with the environment. Perhaps this has necessitated a study of the subject at the graduation and diploma levels. To meet the needs of the students in a satisfactory way, the subject matter of the text has been divided into seventeen chapters, units, sub-units and topics as per the prescribed syllabus. Attempts have been made to integrate theory and applications of the principles of psychology by highlighting the implications of the related knowledge.

Dr. S.K. Mangal. Formerly Principal, Professor & Head, Department of Postgraduate Studies, C.R. College of Education, Rohtak.
Textbook of Medical Surgical Nursing (In Two Parts)

The book has been written according to the curriculum prescribed by the Indian Nursing Council. It covers all the aspects of medical and surgical nursing for various diseases and conditions. Each unit/chapter deals with the aetiology, pathophysiology, clinical features and nursing management of every disease in each system. The tables and boxes highlight the necessary material of the diseases and conditions discussed. The figures are self-explanatory.

Dr. S.N. Chugh. Senior Professor and Pro Vice-Chancellor, Pt. B.D. Sharma Postgraduate Institute of Medical Sciences, Rohtak, Haryana.

Midwifery and Gynaecological Nursing

The book has been written essentially for midwifery students of obstetrics. It has been written strictly according to the syllabus prescribed by the Nursing Council of India. The book has been divided into 13 units.

It is in a coloured format and has many photographs, figures, sketches, flow charts and tables for better understanding of the subject. Most chapters have key points at the end for quick reading during examinations.

It will also act as a useful guide to the midwifery and nursing practitioners of obstetrics in their day-to-day management of obstetrics patients.

Dr. J.B. Sharma. MD, DNB, FRCOG (London), MFFP (London), FAMS, FICOG, FIMSA, Additional Professor in Department of Obstetrics and Gynaecology, All India Institute of Medical Sciences, New Delhi. Formerly, a Professor of Obstetrics and Gynaecology at Maulana Azad Medical College, New Delhi. He has also worked as Obstetrician and Gynaecologist at St. Bartholomew’s Homerton and Whipps Cross Hospital, London, United Kingdom.

Food and Nutrition for Nurses

Food and Nutrition for Nurses has been written in an educative manner for the benefit of nurses and nursing students. The book provides a detailed study of nutritious diet, antibiotics and other medicines. The book has been written in a lucid and simple language and contains appendices of useful information about various foods and vitamins.

Dr. A.K. Jain. Director Professor and Head, Department of Physiology, Maulana Azad Medical College, New Delhi.

Nutrition and Health for Nurses

The book has been developed as per the prescribed syllabus for nursing students. The study material has been organized in a simple and easy language. New concepts and latest developments have also been included. Well-labelled diagrams, summarising tables and coloured clinical pictures/photographs have been incorporated to make learning easy.

Dr. A.K. Jain. Director Professor and Head, Department of Physiology, Maulana Azad Medical College, New Delhi.

Comprehensive Textbook of Pathology for Nursing (Pathology, Clinical Pathology, Genetics)

This is a complete and consolidated textbook exclusively for B.Sc Nursing students and consists of Pathology, Clinical Pathology and Genetics. It has been designed in accordance with the curriculum prescribed by the Nursing Council of India. The book has the following salient features:
  • Simple and lucid language.
  • Text is concise and student-friendly.
  • Some difficult topics have been summarised at the end of the chapters.

Dr. A. K. Mandal. Director Professor and Head, Department of Pathology, Laboratory Medicine and Blood Bank, Safdarjung Hospital and Vardhaman Mahavir Medical College, New Delhi.
Dr. Shramana Choudhary. Associate Professor, Department of Pathology, Maulana Azad Medical College, New Delhi.

Textbook of Genetics for Nursing

The first edition of this book has been exclusively designed to make genetics understandable to B.Sc Nursing students.
Salient Features of the Book:
  • Strictly according to the curriculum prescribed by the Nursing Council of India.
  • The book has been prepared in a simple and comprehensive manner.
  • Self-explanatory illustrations, tables and boxes will help remember the subject easily.

Dr. S. N. Chugh. Ex. Senior Professor and Pro Vice Chancellor, Pt. B. D. Sharma University of Health Sciences, Rohtak, Haryana.
Dr. Kiran Chugh. Professor of Biochemistry, PGIMS, Rohtak
Dr. Aashima Chugh. Senior Resident at GB Pant Hospital, New Delhi.

Books for Pharmacy/OTPT/MLT/BAMS/GAMS

**Human Anatomy and Physiology for Pharmacy (Second Edition)**

This book is exclusively meant for Pharmacy students and introduces basic concepts and principles required to understand the human body. The book is written strictly according to the prescribed syllabus. The book includes:
- Illustrations, tables, photographs, etc.
- Important terms with each chapter.
- New summarising tables.

**Textbook of Medicine for BAMS/GAMS and Physiotherapy Students**

The book has been written in a simple and understandable language for every Indian student to follow easily. The clinical part of the book is highlighted with illustrations, diagrams and figures which are self-explanatory. Various chapters have been written in a comprehensive manner and have been checked by various physicians and resident staff. An attempt has been made to include important topics keeping in view the Indian scenario. The diseases prevalent in India have been discussed in detail.

**Human Physiology and Biochemistry for Physical Therapy and Occupational Therapy (Second Edition)**

The revised edition of the book is exclusively meant for ‘Physical Therapy’ and ‘Occupational Therapy’ students. It furnishes the basic concepts, elementary principles and techniques used in Physiology. The book is written in a simple language so that a beginner can easily understand the concepts. Well-labelled diagrams and point-wise presentation will help in learning and strengthening the memory. Important notes have been put separately in boxes and a very extensive index has been given at the end of the book.

**Dr. A.K. Jain.** Director Professor and Head, Department of Physiology, Maulana Azad Medical College, New Delhi.

**Dr. S.N. Chugh.** Senior Professor and Pro Vice-Chancellor, Pt. B.D. Sharma Postgraduate Institute of Medical Sciences, Rohtak, Haryana.
Textbook of Microbiology for MLT (Second Edition)

A concise and comprehensive textbook on Microbiology including topics on bacteriology, immunology, virology, mycology, parasitology and clinical microbiology. The book includes:
- New chapters — Molecular Detection of Microorganisms, Prophylactic Immunisation, Vehicles and Vectors which have been added to familiarise students with the latest developments.
- Point-wise explanation for quick recapitulation.
- Colour plates/diagrams and tables to provide useful information at a glance.

The text is presented in a simple and lucid language.

Dr. C.P. Baveja. Director Professor, Department of Microbiology, Maulana Azad Medical College, New Delhi.

Dr. V. Baveja. Formerly at B. J. Medical College and N. M. Wadia Hospital, Pune.

Manual of Practical Physiology (for Physical Therapy, Occupational Therapy, MLT & Other Allied Courses)

This book is suitably designed to bring it in line with the prescribed guidelines. It presents working steps in a simplified manner so that even a beginner can handle the experiments. Important viva-voce questions with answers and Objective Structured Practical Examination (OSPE) questions have been incorporated. Numerous diagrams and actual records have been furnished for better understanding of the subject. Frequently asked spots in the examination have been given in a separate appendix. Important topics covered in the manual have been grouped under (i) Haematology Experiments (ii) Nerve and Muscle Experiments (Frog) (iii) Human Experiments.

Dr. A.K. Jain. Director Professor and Head, Department of Physiology, Maulana Azad Medical College, New Delhi.

Practical Microbiology (for MLT, Physical Therapy, Occupational Therapy and Other Allied Courses)

This book has been written in a simple and lucid language. Working steps of each practical have been framed so as to enable a beginner to perform the exercises independently. Identification schemes for different bacteria in the form of flow charts have been included. A chapter on 'Hospital Waste Management' has been added to emphasise its role in microbiology and clinical care of patients in the hospital. The book contains questions along with model answers for easy reproducibility.

Dr. C.P. Baveja. Director Professor, Department of Microbiology, Maulana Azad Medical College, New Delhi.

Miscellaneous and Other Useful Books

**Basic Anatomy and Physiology (Second Edition)**

The basic sciences are being vastly updated and taught at many levels to the students in health-related professions like Medicine, Dentistry, Nursing, Occupational Therapy (OT), Physiotherapy (PT), Medical Laboratory Technology (MLT) and various other branches of medical sciences. This book presents the essential facts of the basics of Human Anatomy and Physiology in a precise, simple and easily understandable language. The entire text has been presented in multicolour and illustrations, tables, graphs and flow charts have been used extensively to explain the text.

**Dr. A.K. Jain.** Director Professor and Head, Department of Physiology, Maulana Azad Medical College, New Delhi.

**Basic Life Support (Second Edition)**

This atlas-based book provides easy-to-understand methods of learning the skills of supporting life. It can be used by all levels of healthcare providers as well as lay persons. The style of presentation, wherein the reader is placed virtually in the midst of an actual situation, has the potential of carrying the message to the masses. The language is simple and the style is lucid. The book printed on art paper illustrates various life-saving techniques in detail.

**Dr. Rakesh Kumar.** DA, MD, Professor Anesthesiology, Maulana Azad Medical College and Lok Nayak Hospital, New Delhi.

**Dr. S. D. Sharma.** DA, M.D. CMO (NFSG), Maulana Azad Medical College and Lok Nayak Hospital, New Delhi.

**Roadmap to Residency in The US**

**Roadmap to Residency in The US** is meant exclusively for all medical graduates who are preparing to take the US Medical Licensing Examination (USMLE). It covers the whole process from USMLE Step-I till residency. It contains a flow chart to plan things in a better way. Written in a simple and easy manner, the book will prove very useful for medical graduates.

**Dr. Mohit Gupta.** Resident in the Department of Internal Medicine at Drexel College of Medicine, St Peter’s University Hospital, New Jersey, USA. He graduated from Maulana Azad Medical College, New Delhi.

**Concise Practical Physiology**

*Concise Practical Physiology* has been suitably designed as per the prescribed curriculum policy on health-related professions like Medicine, Dentistry, Nursing, Home Science, Occupational Therapy (OT), Physical Therapy (PT), Medical Laboratory Technology (MLT), Centralised Accident and Trauma Services (CATS), Bachelor’s degree in Prosthetic and Orthotics (BPO), Bachelor’s degree in Rehabilitation Therapy (BRT) and Bachelor’s degree in Audiology and Speech Language Pathology (BASLP). It furnishes basic information about physiology experiments emphasising every aspect evenly. The diagrams are well-labelled and graphs/records depict analysis and reasoning. Some important viva-voce questions are added at the end of each practical to help students easily reproduce and understand the subject matter. Important topics in the manual are covered under three units as (i) Haematology Experiments (ii) Nerve and Muscle Experiments (Frogs) (iii) Human Experiments.

*Dr. A.K. Jain*. Director Professor and Head, Department of Physiology, Maulana Azad Medical College, New Delhi.

**Textbook of Human Physiology**

The book attempts to summarise the current state of knowledge of the functions of the human body. It furnishes the fundamental principles and unifying facts of human physiology. The entire textbook is in multicolour and has been presented in a simple and lucid language. Flow charts, tables and well-labelled diagrams make learning easy and strengthen the memory. Important terms have been highlighted and frequently asked questions are given at the end of each chapter. New concepts and latest developments have also been included. An extensive index has been appended at the end of the book.

*Dr. A.K. Jain*. Director Professor, Department of Physiology, Maulana Azad Medical College, New Delhi.

**The Skills of History Taking**

Proper communication with patients is an art and every doctor keeps on learning it throughout his/her life. The art is taught in the form of ‘History Taking’ right from early student life. This book is all about the practical aspects of History Taking. It has focused on the most undercovered question of communication: ‘how to ask?’ It includes the commonly encountered problems while interacting with various types of patients, the most appropriate ways of dealing with them, a detailed format of medical history and a methodical approach to History Taking and its presentation. The students can improve their confidence while interacting with various types of patients, a skill useful in the future.

*Dr. Rahul Tanwani*. MS, MCh, Assistant Professor, Surgery, Index Medical Collage, Indore.

**Handbook of MRCOG Part 2 Examination**

The book is intended for doctors and postgraduates preparing for the MRCOG Part 2 exam, majority of whom have no exposure to the NHS and its functioning. The academic level of this exam in the UK is at postgraduate level. However, in India and South East Asia (Singapore, Malaysia, Sri Lanka, Hong Kong among others), doctors in all stages of their academic career are taking the exam, whether they are residents or consultants. This book is a means to virtually get familiar with the nitty gritty of the UK health system while sitting in the comfort of your home.

*Dr Pakhee Aggarwal*. (MS, MRCOG, MICOG, MIPHA) is Consultant (Obstetrics and Gynaecology) at Fortis Healthcare, New Delhi.

*Dr Sanjeev Sharma*. (MS, FRCOG, Dip. PG (Medical Education) is Consultant (Gynaecology) and Director of Medical Education, Southport and Ormskirk NHS Trust, Southport, UK. He has had a long-standing interest in education and training.
